

RADARO

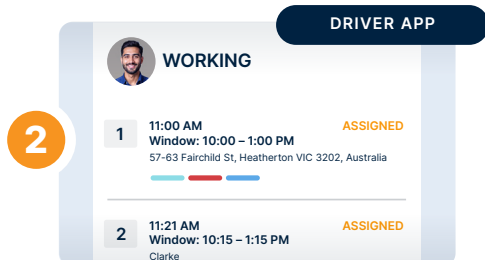

Deliver better at every mile.

LAST MILE DELIVERY SOFTWARE DESIGNED FOR COMPLEX, REAL-WORLD LOGISTICS.

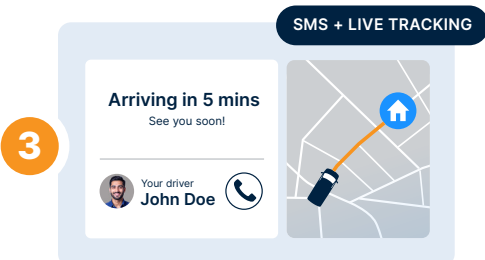

Trusted by 10,000+ daily users to streamline everything from job creation to executive reporting.

Easily load jobs for own, contractor, and 3PL fleets into Radaro, optimise 1000s of jobs in seconds, and set the day up for success.

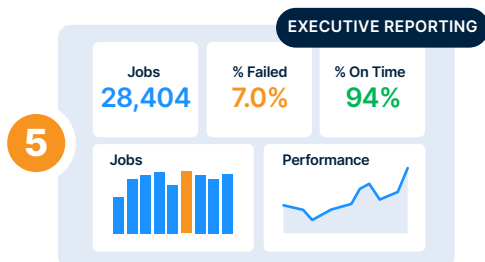

Drivers start every shift with confidence using standardised, configurable workflows and built-in compliance verification in the app. Their day's route easily viewable.

Keep customers informed automatically with proactive SMS updates, live tracking they can trust, and a continuous customer feedback loop.

Establish an audit trail with proof-of-delivery and real-time network visibility for operations and customer support teams.

Turn daily operations into real-time executive insights with clear Power BI reporting for the C-suite.
